4. Complete list of clips and reasonable adjustments
This section provides a complete list of all of the film clips on the three DVDs. It also lists some of the reasonable adjustments that can be seen in the clips. The list is organised to help the viewer:

- find their way round the resource;
- plan viewing;
- plan follow-up activities and training in the light the viewing.

The film clips on the DVDs provide examples of reasonable adjustments from the schools who volunteered to take part in the Reasonable Adjustments Project (RAP). The clips do not cover every impairment or every approach. They were filmed to provide ideas about what can be done to include disabled pupils in different aspects of school life and to encourage discussion about how adjustments can be made to remove barriers for disabled pupils.

Viewers can watch ready-made sections of film clips or can select individual clips. The ready-made sections provide collections of clips grouped around various aspects of primary and secondary education. The sections of film vary in length from seven to twenty-five minutes.

In the list that follows there is a range of information about each of the film clips:

**Code**
Each section and each film clip has a code that enables it to be located on the DVD. At the start of each clip, the code will appear in the corner of the screen for a short time.

Supported by the other relevant information in the Complete list, the codes enable you to select sections or clips that are relevant to a particular school, to a particular topic or to a particular impairment. Sections are selected from the screen menus. Once in a particular section you can skip to the clip you want to look at.

**School and pupil**
The Complete list shows gives the name of the school in which each clip was filmed and any pupil featured significantly in that clip.

**Reasonable adjustments**
The Complete list shows some of the reasonable adjustments that can be seen in that clip. It gives an indication of some of the reasonable adjustments that can be seen, it is not an exhaustive list of every adjustment.

**Impairment**
The final column in the Complete list indicates the impairment of pupils who feature significantly in a film clip. The nature of a pupil’s impairment is as it was described to RAP in the information provided by schools or by parents. This means, for example, that a pupil with Downs syndrome may be described as having Downs syndrome or may be described as having learning difficulties. The viewer should bear this in mind when selecting film clips.

All the pupils shown in the clips are likely to be disabled under the definition in the Disability Discrimination Act 1995 (DDA), that is: they have an impairment that has a long-term and substantial adverse effect on their ability to carry out normal day-to-day activities. The definition in the DDA is broad and includes many more children and young people than is normally thought. There is more information on the definition of disability in the introductory section to this resource, Duties and definitions.

A code is used to indicate the pupil’s impairment:
ADD  attention deficit disorder
ADHD  attention deficit hyperactive disorder
AS  Aspergers syndrome
ASD  autistic spectrum disorder
BES  behavioural, emotional, social difficulties
FD  facial disfigurement
HI  hearing impairment
LD  learning difficulty: in these film clips this includes children with: Downs syndrome (DS); dyslexia (Dys)
MN  medical needs: in these film clips this includes children with: asthma (A); epilepsy (E); epidermolisis bulosa (EB); recovering from cancer (Ca); myalgic encephalomyelitis (ME); a tracheotomy (T)
MSI  multi-sensory impairment
PI  physical impairment: in these film clips this includes children with: brittle bones (BB); cerebral palsy (CP)
SLC  speech, language and communication difficulties
TS  Tourettes syndrome
VI  visual impairment

Other abbreviations
There are other abbreviations used in the Complete list:

DFES  Department for Education and Skills
ICT  Information and Communications Technology
MAPs  Making Action Plans
PE  Physical Education
physio  physiotherapy
SALT  speech and language therapist
TA  teaching assistant: this term is used to include learning support assistants and special needs assistants supporting pupils and teachers in classrooms
